

SlenderQuest™

Homeopathic Weight Management System

AT LAST, a company has developed a doctor recommended, naturally sourced, effective weight management system that **works!** SlenderQuest, designed under the direction of Dr. Leonard Haimes—a leading expert in the field of weight management and nutrition, is supported by over 30 years of scientific research unlocking the mystery of *human thermogenesis—the bodies inherent ability to eliminate unwanted fat and burn excess calories through internal heat production*. Armed with conclusive scientific evidence and the time-proven, safe and effective science of Homeopathy, SlenderQuest represents an exciting new era in *effective* weight management.

HOW IT WORKS:

SlenderQuest contains **18** meticulously selected homeopathic ingredients formulated to function synergistically with the body, rather than against it like most diet products currently on the market. In combination, these homeopathic ingredients thermogenically stimulate the body's own innate fat consumption system to eliminate unwanted fat and burn excess calories. This thermogenic reactivation of the bodies "brown adipose tissue" (BAT)— an organ in the body, whose sole purpose is to burn excess calories and fat, results in effective fat management and long-term weight loss success.
